

Commutations & Operations

AGENDA

- Repeaters and Repeater Operation
- Gateways

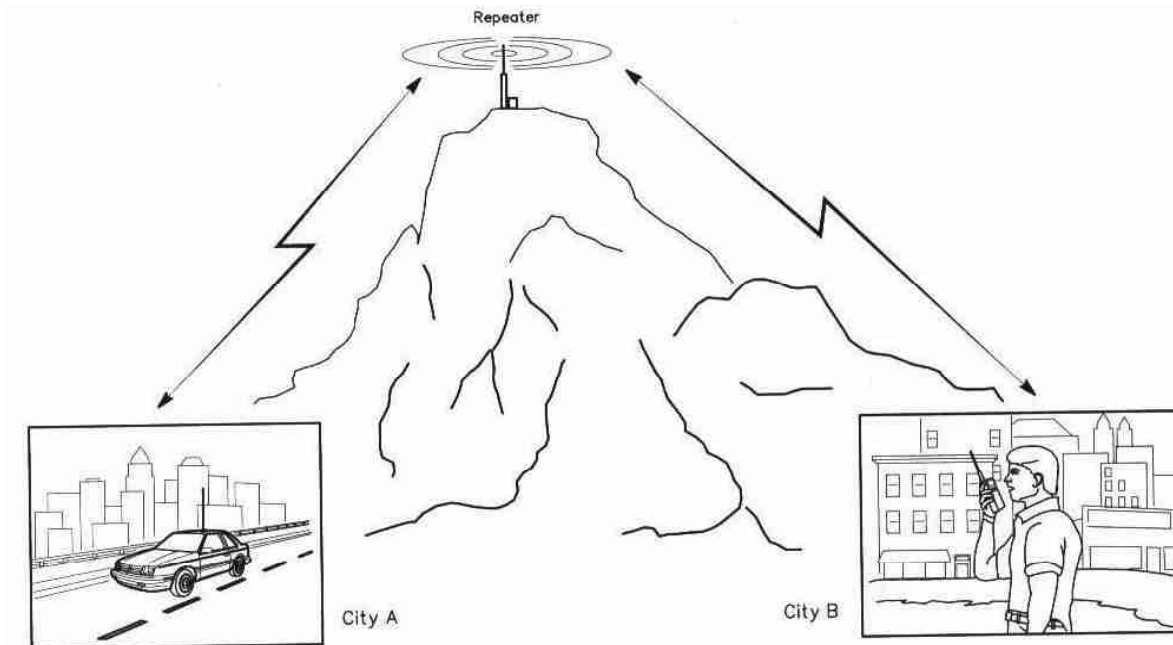

Commutations & Operations

Antenna Gain

- Antenna Gain: Achieved by altering the radiation pattern of an antenna
 - ⊔ Same amount of power exists, but is spread over a condensed area
 - ⊔ Isotropic antenna is usually used as the reference
 - √ Gain referenced to an isotropic antenna is expressed in dBi
 - ⊔ Dipole antenna may be used as the reference
 - √ Gain referenced to a dipole antenna is expressed in dBd

Repeater Communications

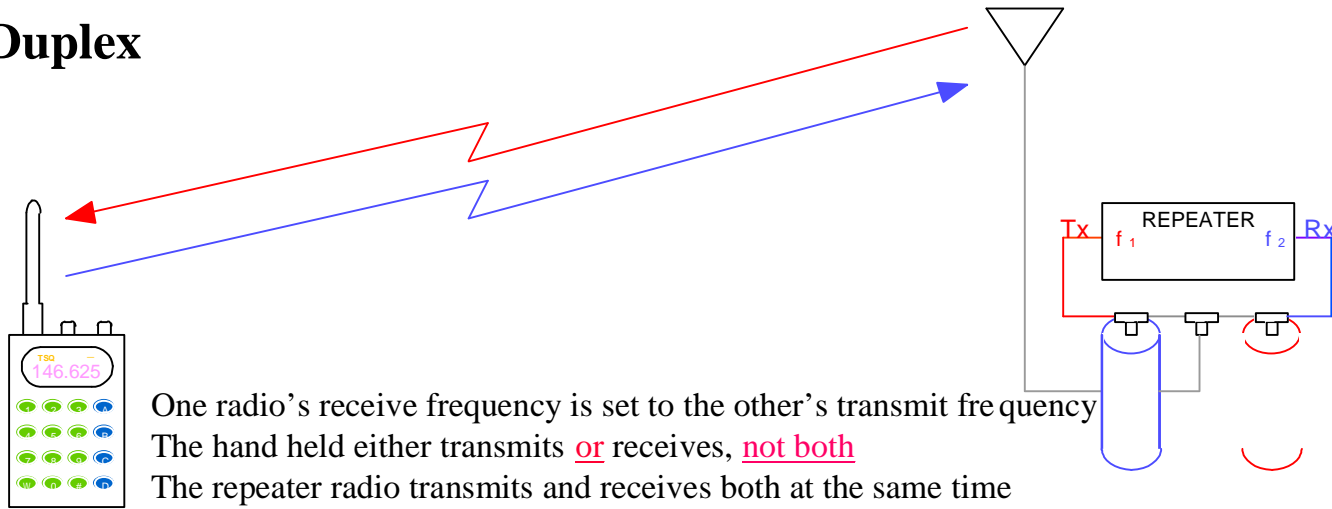

Commutations & Operations

Repeater Operations

- q Basics
 - u Enhance mobile and low-power operations
 - u Pause briefly between transmissions
 - u Give call sign to break in
- q Checking the reverse
 - u Listening to the repeater input frequency (reverse) to see if simplex is practical
- q Frequency Coordinator
 - u A person or group that recommends frequency pairs for repeater use
 - u Repeater interference resolution is the responsibility of the repeater operators
- q Repeater Identification
 - u Identify in either voice or CW mode (CW may not be more than 20 wpm)
- q Full Quieting
 - u The condition when the audio signal overcomes all noise in the receiver
- q VHF & UHF communications should be used to avoid tying up the HF bands

Commutations & Operations

Duplex

REPEATER INPUT/OUTPUT OFFSETS

Local 2-Meter Frequency Pairs

	RADIO RX/RPTR TX	RADIO TX/RPTR RX
PPFMA:	146.970	146.370
CMRG:	147.345	147.945
CSARA:	146.625	146.025
UCCS:	145.265	144.665

Commutations & Operations

q SUB AUDIBLE TONES

® Inserted under the voice band to alert the receiver of an incoming signal

® Used to discriminate between unwanted signals or noise.

Continuous Tone Coded Squelch System (CTCSS) (PL®)

<i>67.0</i> - XZ	97.4 - ZB	141.3 - 4A	<i>206.5</i> - 8Z
69.3 - WZ	100.0 - 1Z	146.2 - 4B	<i>210.7</i> - M2
71.9 - XA	103.5 - 1A	151.4 - 5Z	218.1 - M3
74.4 - WA	107.2 - 1B	156.7 - 5A	225.7 - M4
77.0 - XB	110.9 - 2Z	162.2 - 5B	<i>229.1</i> - 9Z
79.7 - WB	114.8 - 2A	167.9 - 6Z	233.6 - M5
82.5 - YZ	118.8 - 2B	173.8 - 6A	241.8 - M6
85.4 - YA	123.0 - 3Z	179.9 - 6B	250.3 - M7
88.5 - YB	127.3 - 3A	186.2 - 7Z	<i>254.1</i> - 0Z
91.5 - ZZ	131.8 - 3B	<i>192.8</i> - 7A	
94.8 - ZA	136.5 - 4Z	<i>203.5</i> - M1	

Additional Tones that
may be found on some
systems

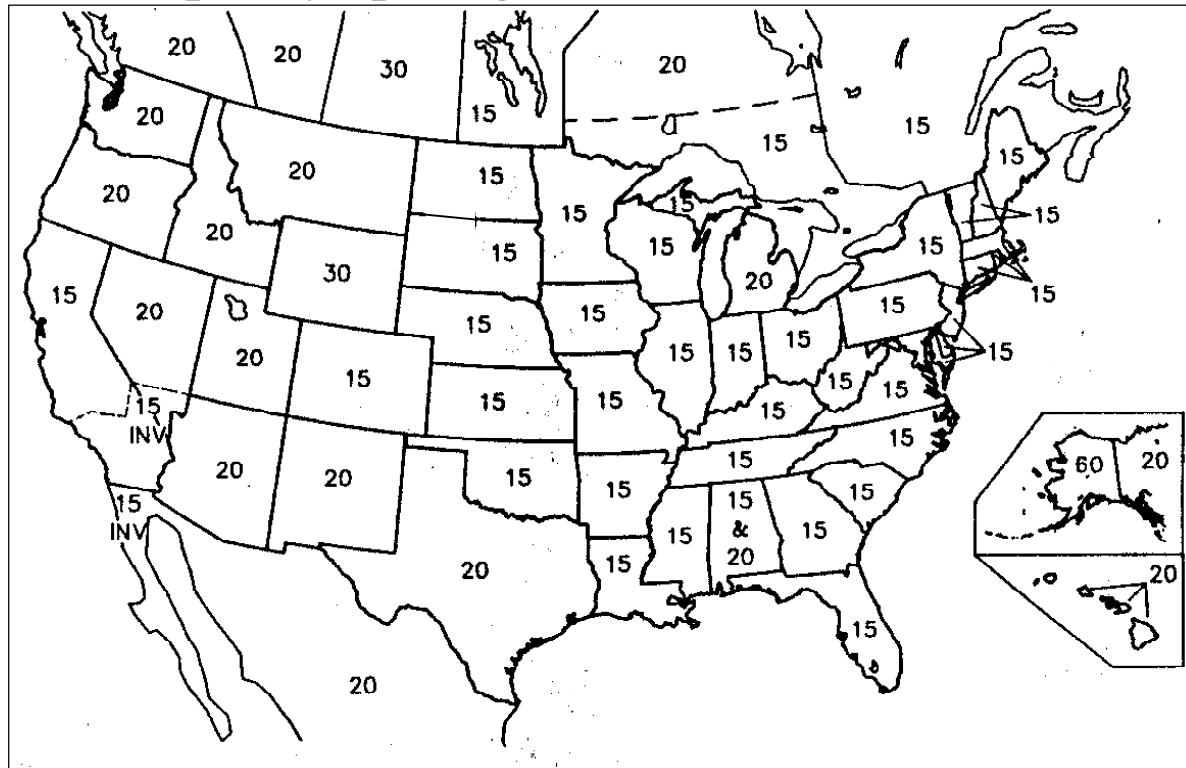

159.8
165.5
171.3
177.3
183.5
189.9
196.6
199.5

q Italic frequencies may or may not be present on your radio

u Orange not on ARRL list

u Green not on Yaesu radio

Repeater Frequency Spacing

Commutations & Operations

Autopatch

- **Autopatch:** Allows repeater users to make telephone calls through the repeater
- **Guidelines for Use:**
 - ↳ Do not use the autopatch when regular phone service is available .
 - ↳ Never use the autopatch for business communications.
 - ▽ The rules have been relaxed, but ...
 - ↳ Do not use it to avoid a long distance service charge of the telephone company
 - ↳ Remember you are on the air!
- **Open Repeater:** A repeater open to all amateurs
 - ↳ The autopatch may or may not be open to all.

Commutations & Operations

Gateway Communications

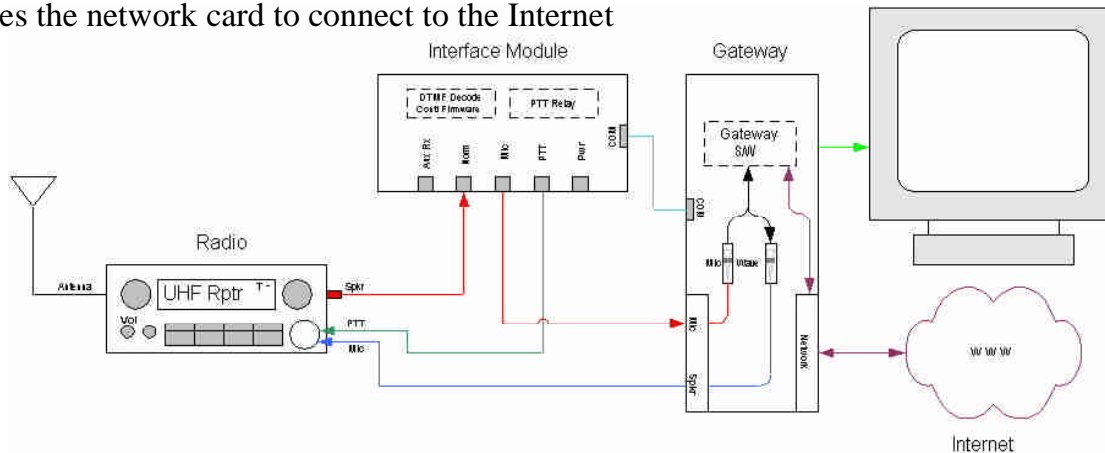

Commutations & Operations

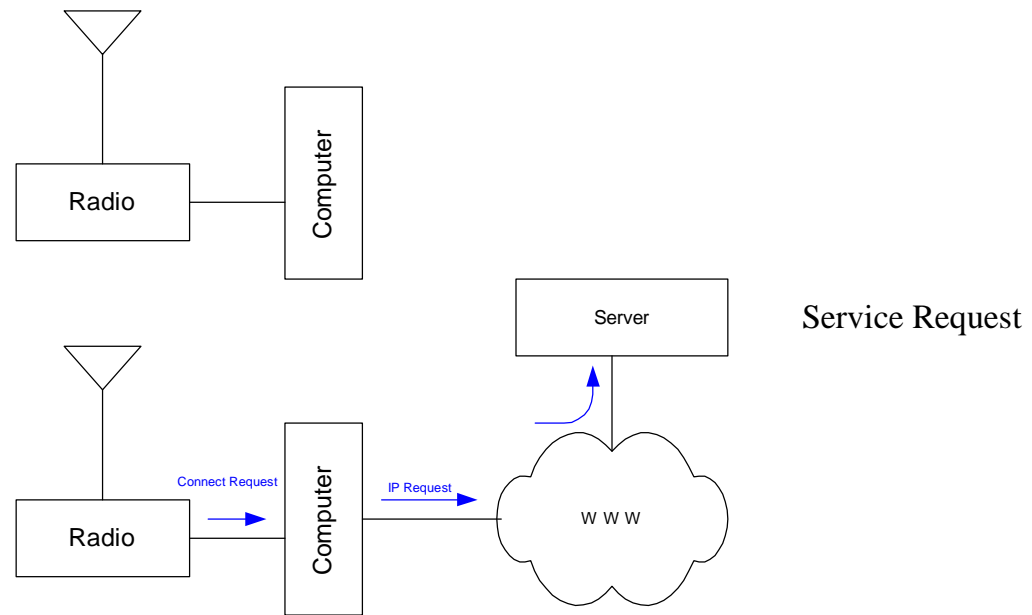

Gateway Basics

- Amateur Radio Communications over the Internet (Note: May not use 2-Meters as a remote base)
 - └ Uses Voice over Internet Protocol (VoIP)
 - └ Two prominent systems
 - ✓ EchoLink: May use a radio or a computer to send voice information over the Internet
 - ✓ Internet Radio Linking Project (IRLP): Communicate over the Internet through repeaters
 - ✓ Connect to other stations using “Node” numbers

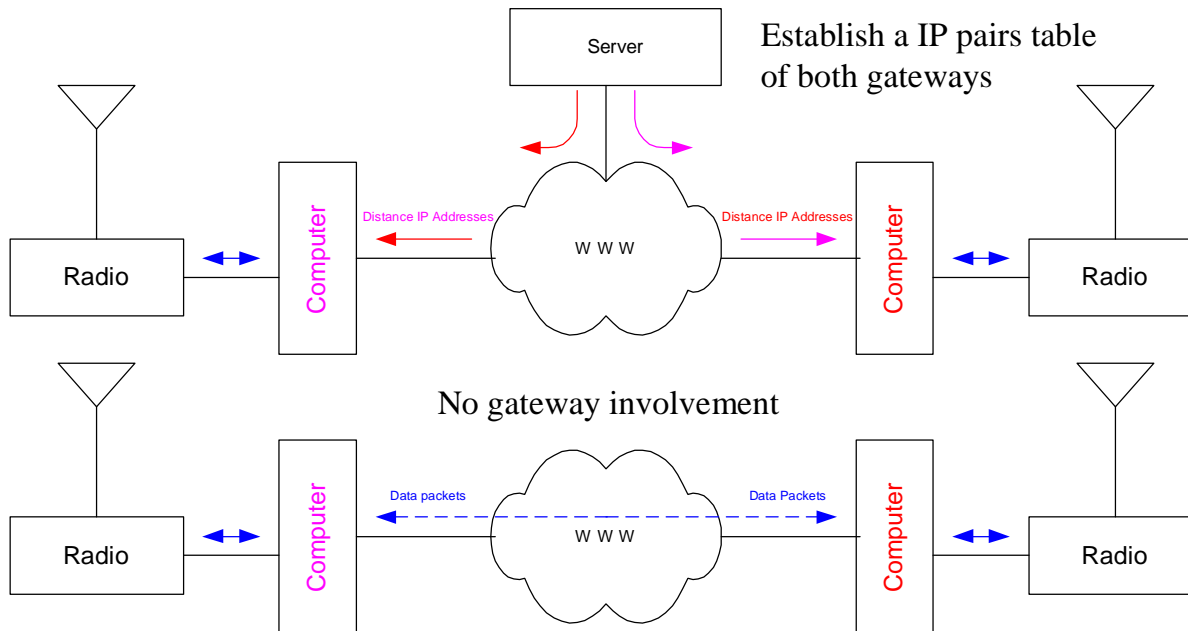

- Gateway is a computer that interfaces between the user and the Internet
 - └ Uses the sound card to interface to the amateur station
 - └ Uses the network card to connect to the Internet

Gateway Basics - Continued

q Can not use two meters

u http://www.access.gpo.gov/nara/cfr/waisidx_00/47cfr97_00.html

u Part 97.201 Auxiliary station

- ✓ Any station that is remotely controlled via radio must utilize an auxiliary station to execute said control and auxiliary stations are restricted in frequency.
- ✓ <http://www.arrl.org/qst/2003/02/VoIP.pdf>

Repeaters in Colorado

<u>Frequency (MHz)</u>	<u>NOTES</u>
145.130 (-) [123.0]	Colorado Springs Repeater to Colorado Connection (Statewide - LINK)
145.160 (-) [107.2]	Colorado Repeater Association - Colorado Springs - Denver 147.225 Repeater
145.265 (-) [100.0]	Pikes Peak FM Association Repeater on UCCS Campus (local)
146.520	National Simplex Calling Frequency - Popular Simplex Frequency
146.625 (-) [123.0]	Colorado Springs Amateur Radio Association Repeater (local)
146.730 (-)	Walsenburg Repeater
146.760 (-) [100.0]	RACES Net Tuesday Evenings at 7:30 PM
146.790 (-)	Pueblo Amateur Radio Club - Pueblo Repeater
146.820 (-) [107.2]	Mountain Amateur Radio Club (Teller Co. Primary - Woodland - LINK)
146.835 (-)	Portable Repeater 1
146.865 (-)	Portable Repeater 2
146.880 (-) [88.5]	Deer Peak (Pueblo Repeater) - Good for So. Mountains
146.910 (-) [151.4]	Garden of the Gods Amateur Radio Club Repeater (local)
146.970 (-) [100.0]	Pikes Peak FM Association Repeater
147.015 (+) [107.2]	Mountain Amateur Radio Club (Teller Co. & Cripple Creek - LINK)
147.165 (+) [151.4]	Private Repeater in Colorado Springs
147.030 (+) [107.2]	Private Repeater in Colorado Springs
147.210 (+)	Cañon City Repeater - Good for Arkansas River Canyon
147.345 (+) [100.0]	Cheyenne Mountain Repeater Group Repeater

Repeaters in Colorado

<u>Frequency (MHz)</u>	<u>NOTES</u>
446.000	National Simplex Calling Frequency - Popular Simplex Frequency
447.675 (-) [107.2]	Black Forest Amateur Club (local)
448.000 (-) [100.0]	Cheyenne Mountain Repeater Group
448.100 (-) [100.0]	Cheyenne Mountain Repeater Group
448.450 (-) [100.0]	Pikes Peak FM Association Repeater on UCCS Campus (local)
447.025 (-) [123.0]	Colorado Springs Amateur Radio Association Repeater (local)
449.625 (-) [100.0]	Cheyenne Mountain Repeater Group - Pueblo (Deer Peak)
